Sam,

Attached is a draft MOA between ADEQ and EPA. You will notice that sections for EPA Objection and Mitigation are missing. Those sections are still under development as we navigate how best to address them. For example, the Mitigation section will be informed by our MOA with the Corps, so we are waiting to get those details hammered out first.

I just spoke with David Lelsz about using the MOA to address tribal concerns. You will notice we do not include any such provisions in this iteration. We do not consider this document the correct place to do that. However, we would appreciate any feedback on how to address Tribal concerns.

Thank you,

Ben Bryce
